FOR IMMEDIATE RELEASE

February 11, 2025

Naperville, IL – The Turbine Inlet Cooling Association (TICA) congratulates John S. Andrepont, a Founder and long-time Director of TICA and a co-author of the ASHRAE Design Guide for Combustion Turbine Inlet Cooling (Published in 2022), for receiving the honor of ASHRAE Fellow during the 2025 ASHRAE Winter Meeting (February 8-12, Orlando, FL). John is the Founder and President of The Cool Solutions Company in Naperville, IL, and a Life Member of ASHRAE.

The Fellow grade “recognizes members who have attained distinction and made substantial contributions in HVAC&R and the built environment such as education, research, engineering design, and consultation, publications, presentations, and mentoring.” For decades, John has served on ASHRAE’s technical committees for District Energy, Thermal Storage, and Cogeneration. The October 2019 *ASHRAE Journal* included John in the Hall of Fame for the initial class of ASHRAE’s Cool Thermal Energy Storage (TES).

John has participated actively in IDEA for decades, presenting at numerous conferences, contributing articles to *District Energy* magazine, and serving on its Board of Directors for five years, including two years on the Board’s Executive Committee. John received the honor of IDEA’s 2019 Norm Taylor Award, recognizing his career-long achievements in TES and support for the IDEA community.
